

IPO CHART

Program name:	Palindrome.java	
INPUT	PROCESS	OUTPUT
Hint: What will the user input?	Hint: What is the program going to do with the input information?	Hint: What will the screen display after user input?
The user will input any word or phrase	The program will turn it into a character array, ignore spaces, and check to see if the array is the same left to right, and right to left. If it is the same, it turns boolean to true, else, false.	The program prints out whether or not the inputted string is a palindrome
